Phase I - Equitable Access to Effective Educators School Diagnostic

Introduction

National data show that poor and minority students, English Language Learners and students with disabilities continue to be taught more often than their peers by inexperienced, out-of-field or ineffective teachers. As a result, the United States Department of Education (USDE) required states to develop equity plans and use evidence based strategies to address this issue. Kentucky's plan is focused on teacher preparation; recruitment, hiring and placement of teachers; providing supports for on-going, job-embedded professional learning; and strategies to retain teacher and leaders.

All districts and schools in Kentucky are required to identify barriers and develop strategies to address these issues to achieving equitable access to effective educators for students most at risk. This is being incorporated within the Comprehensive District and School Improvement Plans. This diagnostic should be used as tool for identification of barriers and a catalyst for development of strategies that will result in novice reduction for gap closure. Strategies will be incorporated into the Comprehensive School Improvement Plan.

School Equity Data (1)	<p>Complete the School Equity Data tab for this diagnostic. Include at least one other self-selected indicator for consideration.</p> <p>*Self-selected data could come from a variety of sources. It should be relevant to the needs of the school. Examples could include: principal, teacher or student demographic data; percentage of National Board Certified Teachers or Advanced Degrees; teacher or principal effectiveness data, TELL, turnover.</p> <p>**The school should complete the information in the chart ONLY for the subgroups reported in the School Report Card where the data has been suppressed to protect student identification required by the Family Educational Rights and Privacy Act (FERPA). Follow the steps below:</p>	I acknowledge that I have uploaded the School Equity Data.		School Equity Diagnostic 2016-17

Provide a brief analysis the school data from the chart. Include any trends, note-worthy data points or perceptions the data has provided related to equitable access to effective educators.

The data has shown that 25% of the teachers in the building has less than 4 years experience. It also shows that the ADA for students is lower than what I would want.

After the data analysis is complete, the school will then identify the barriers (challenges) for some of the identified trends. An identified barrier, for example, could be higher teacher turnover in priority schools as compared with non-priority schools. Once the barriers have been identified, then root causes of why the barriers exist will be included.

Under developed teachers. Teachers with little experience servicing a rural population. They lack the experience to adapt to changes in the classroom to meet the students needs. New teachers lack the ability to relate to the student population that makes up Onieda Elementary and see their needs to succeed in their classrooms as compared to the more experienced teachers in the building.

Goal Setting (4)	<p>Complete the School Equity Goals tab. Use the school's most recent measures in the Equity tab of the School Report Card to set equitable access goals for the next three years. The measures include: Working Conditions, Overall Teacher and Leader Effectiveness, Overall Student Growth, Percentage of new and KTIP teachers, and Percentage of Teacher Turnover.</p> <p>***Goals should reflect an analysis of barriers, root causes and strategies.</p>	I acknowledge that I have uploaded the School Equity Goal Data. Comprehensive School Improvement Plan

Oneida Elementary School

Equitable access to effective educators must be reflected in the Comprehensive School Improvement Plan. Strategies could include, but are not limited to, recruitment; hiring and placement of teachers and/or students; providing supports for on-going, job-embedded professional learning to improve teacher and leader effectiveness; and strategies to retain teacher and leaders, particularly in high needs schools. Once implemented, these should assist the school in meeting the goals set in the previous section.

If there are strategies and activities within one of the five major goals of the CSIP, which adequately addresses equitable access, the school may select the appropriate goal, objective, strategies and activities.

OR

The school may create a new goal to address equitable access to effective educators. Once a new goal has been created, the school will need to include appropriate objectives, strategies and activities.

The school may choose to provide an optional narrative response to include any additional information, but this is not required.

Goal 1:

Increase the averaged combined reading and math K-Prep scores for Oneida Elementary School students from 35.3% in 2015 to 51.7% in 2017.

Measurable Objective 1:

collaborate to increase the average combined reading and math scores to 51.2% by 05/31/2017 as measured by K-PREP .

Strategy1:

CIITS - All teachers will be trained in the use of CIITS to develop assessments and lesson plans.

Activity - Utilize Informative Feedback	Activity Type	Begin Date	End Date	Funding Amount & Source	Staff Responsible
The principal will utilize TELL Survey data as a formative instrument to drive decisions concerning leadership behaviors.	Professional Learning	08/08/2016	05/31/2017	\$350 - District Funding	Principal

Goal 4:

Oneida Elementary will decrease the number of novice math students from 25 on the 2016 K-PREP to 20 in 2017.

Measurable Objective 1:

A total of 59 Third, Fourth, Fifth and Sixth grade students will increase student growth by performing at least apprentice for their grade level in Mathematics by 05/31/2017 as measured by 15 or less students performing at the novice level on K-PREP.

Strategy1:

MATH Block - Students in grades 4-6 are divided based on quantile data. Groups are labeled using a color and then each teacher spends approximately 8 weeks with each group working on a variety of math related ideas and concepts. Class is 30 minutes a day and takes place right before lunch. Teachers will utilize the quantile website to obtain lesson plans and printables that are targeted to specific standards for students based on quantile scores.

Category: Learning Systems

Oneida Elementary School

Activity - Peer Tutoring	Activity Type	Begin Date	End Date	Funding Amount & Source	Staff Responsible
Higher level math students will work one on one with struggling students that have scored novice on K-PREP or have similar low scores on recent MAP assessments. Content for tutoring will be grade level appropriate.	Tutoring	08/08/2016	05/31/2017	\$0 - No Funding Required	Mr. Hyden, Leisa Frazier

Activity - IXL Math	Activity Type	Begin Date	End Date	Funding Amount & Source	Staff Responsible
Students work to build mastery levels using online, self-paced, learning modulus.	Technology	09/12/2016	05/31/2017	\$900 - Other	Mr. Hyden, Leisa Frazier

Goal 5:

Oneida Elementary will decrease the number of novice reading students from 15 on the 2016 K-PREP to 10 in 2017.

Measurable Objective 1:

82% of Third, Fourth, Fifth and Sixth grade students will increase student growth above the novice level in Reading by 05/31/2017 as measured by 2017 K-PREP reading scores.

Strategy1:

Reading Groups - Students will be grouped based on Lexile scores and assigned to different reading groups that focus on standards where proficiency has not been met.

Category: Learning Systems

Research Cited: High Yield Instructional Strategies, Lexile Framework for Reading

Activity - Reading Mastery Retired Teacher	Activity Type	Begin Date	End Date	Funding Amount & Source	Staff Responsible
A retired teacher will be contracted for three hours a day to teach reading mastery to students that meet the criteria for novice reduction.	Academic Support Program	08/08/2016	05/31/2017	\$5000 - Title I Part A	Mr. Hyden, Pam Lunsford

Activity - AR - Book Points	Activity Type	Begin Date	End Date	Funding Amount & Source	Staff Responsible
All students that are testing below proficiency will be assigned a teacher mentor to assist them in getting their book points each 9 weeks.	Academic Support Program	08/08/2016	05/31/2017	\$0 - No Funding Required	All teachers, administrators and aides will be responsible.

Activity - Peer Reading	Activity Type	Begin Date	End Date	Funding Amount & Source	Staff Responsible
During the morning before school starts, students that are either proficient or distinguished in grades 5 and 6 will read and work with students in grades 3 and 4 that are at risk of performing novice on the K-PREP test. Academic Support Program	09/05/2016	05/31/2017	\$0 - No Funding Required	Mr. Hyden, Melissa Robinson, Wes Ruth, Kevin Allen.

Goal 6:

Oneida Elementary will increase the number of students that are labeled kindergarten ready.

Measurable Objective 1:

40% of Kindergarten grade students will increase student growth to perform at or above grade level in Reading by 08/25/2017 as measured by Brigance Kindergarten Readiness Screener.

Strategy1:

Community Outreach - Without the ability to have a preschool, Oneida faculty and staff will have a variety of options to reach out to potential kindergarten students for the upcoming year. The strategy is to offer help for parents to work with their kids and prepare them for entry into kindergarten as best they can.

Category: Stakeholder Engagement

Activity - Kindergarten Picnic	Activity Type	Begin Date	End Date	Funding Amount & Source	Staff Responsible
Students that will be enrolled in kindergarten for the 2016-2017 school year will be invited to OES along with their parents for an evening of fun. Students will do crafts, listen to music, play games and receive free books. Parents will be educated on what to do to help get their child ready for kindergarten.	Extra Curricular	04/03/2017	04/28/2017	\$1500 - Grant Funds	Mr. Hyden, Sherry Maggard, Leisa Frazier

Goal 7:

Increase the averaged combined reading and math K-PREP scores for Oneida Elementary from 40.2% in 2016 to 50.5% in 2017.

Comprehensive School Improvement Plan

Oneida Elementary School

Measurable Objective 1:

collaborate to increase the combined average rating and math scores to 50.5% by 05/31/2017 as measured by K-PREP.

Strategy1:

Math Initiative - Implement research based math interventions to increase student achievement.

Category: Professional Learning & Support

Activity - IXL Math	Activity Type	Begin Date	End Date	Funding Amount & Source	Staff Responsible
Math will be used during lab time that is included in the master schedule.	Academic Support Program	08/01/2016	05/31/2017	\$4500 - Other	Teachers and administration

Goal 8:

Oneida Elementary will decrease the number of Novice number of students from 15 students on 2016 KPREP to 10 in the 2017 KPREP.

Measurable Objective 1:

A 80% increase of Third, Fourth, Fifth and Sixth grade students will increase student growth decrease Novice reading from 15 students in 2016 to 10 students in 2017 in Reading by 05/31/2017 as measured by KPREP scores.

Strategy1:

Reading Groups - Retired teacher will pull students who struggle in reading and work with them and build their reading skills.

Category: Stakeholder Engagement

Research Cited:

Reflection

Reflect upon your responses to each of the Missing Piece objectives.

Oneida Elementary is doing a great job collaborating with the community and local businesses. To keep this going Oneida Elementary is constantly doing all they can to publicly thank and recognize those who offer assistance and help to the school. This lets those that are offering their help feel appreciated and know that they are welcomed here.

Oneida Elementary does need to improve ways for parents to grow in the knowledge of what the SBDM and PTO really are. There is not enough parent involvement on decision making within the school. Parents in the community feel that they are not knowledgeable when it came to the SBDM and how it works. This will be accomplished by posting minutes on the website and near the front office. Also, put it in the school newsletter that will go home monthly. Oneida Elementary will lastly use social media to spread the word on what SBDM really is and how they can get involved in the education of their children.

Introduction

The responses should be brief, descriptive, and appropriate for the specific section. It is recommended that the responses are written offline and then transferred into the sections below.

Improvement Planning Process

Improvement Planning Process

Describe the process used to engage a variety of stakeholders in the development of the institution's improvement plan. Include information on how stakeholders were selected and informed of their roles, and how meetings were scheduled to accommodate them.

Through survey opportunities, teacher meetings, SBDM meetings and localized conversations, Oneida has sought out the help of parents, teachers, local business owners, Wal-Mart, Promise Neighborhood, Save the Children, Eastern Kentucky University, University of Kentucky and others to develop the school improvement plan. Those stakeholders that offer monetary help for students and staff were contacted through phone and email as they were informed of school needs and plans to improve student achievement. Skype was utilized for face to face conversations that needed to take place with the SBDM committee. Those in the community were contacted through the school call out system, flyers, signage, and social media outlets. Meetings were scheduled to accommodate both the school day and work schedules of locals. The majority of meetings were held at 6:00 for the local community while business related discussions took into account professional schedules and took place during the day.

Describe the representations from stakeholder groups that participated in the development of the improvement plan and their responsibilities in this process.

Promise Neighborhood supplied grant money divided into predetermined categories for school use. Teachers in conjunction with SBDM created an IPP budget that allocated monies for student growth. Promise Neighborhood then audited that budget for compliance with federal grant requirements.

Wal-Mart has donated money to Oneida to support the growth and sustainability of the after school program. In addition to this generous offer Wal-Mart awarded OES teachers with gift cards to purchase needed classroom supplies. Although Wal-Mart supplied the funding through their grants, OES faculty in conjunction with SBDM was allowed to decide how to utilize this funding.

The local SBDM committee itemized the yearly budget to determine where monies should be spent to provide students with the help they need to be successful. Teachers offered input through survey instruments and recommendations. Research conducted by OES leadership team offered insight to which programs provided the right help for students based on data trends.

The local PTO provided monies to fulfill requirements identified in OES Program Review. Art supplies, classroom materials, gallery showings and community events added to the culture and depth of Oneida Elementary.

Business owners and community members graciously offer mentoring opportunities for students at Oneida. Guest speakers that have found value in education and business talk with students and stress the value of education and goal setting.

Eastern Kentucky University offers programs and incentives for student that perform at high levels. University of Kentucky conducts research projects with students and then provides transportation to campus allowing students to tour a major university campus while glimpsing into the college experience.

Readiness starts at Oneida Elementary and every dollar and every experience given through stakeholders in a building block in developing these core components

Explain how the final improvement plan was communicated to all stakeholders, and the method and frequency in which stakeholders receive information on its progress.

Comprehensive School Improvement Plan

Oneida Elementary School

Oneida's improvement was discussed in person with all teachers in a staff meeting. The SBDM committee met after school with local stakeholders to review the document and accept the components therein. Others were given portions of the document to review through email communication and asked for their approval and to agree with their part.

The final document is posted on Oneidas website and email notification is given when changes are made.

Phase I - Needs Assessment

Introduction

The purpose of the School Needs Assessment is to use data and information to prioritize allocation of resources and activities.

Data Analysis

**What question(s) are you trying to answer with the data and information provided to you? What does the data/information tell you?
What does the data/information not tell you?**

Through data analysis we are trying to identify students that are below grade level in reading and math. In addition to identifying specific students we look closer at the specific content strands that students are lacking in. The data is telling us that we need to focus on basic numeracy in math and increase fluency and comprehension in reading. Although the data does not give specific solutions to these problems, it does guide us in the direction needed to build a successful curriculum through the use of researched based strategies

Areas of Strengths

What were the areas of strength you noted? What actions are you implementing to sustain the areas of strength? What is there cause to celebrate?

There has been significant growth in reading and math over previous noted data. The Elgin initiative used at Oneida has shown to be helpful and will continue to be a staple in reading curriculum. To ensure this happens the master schedule will be structured around the reading program and allow for reading support blocks to target struggling readers. In addition IXL mathematics and pearson success have show growth in student math performance. Scheduled time will be allotted for student math lab throughout the day and in the morning before school starts for students to work in math labs. After school programs as well as the implementation of a math interventionist will assist in helping struggling math students.

Opportunities for Improvement

What were areas in need of improvement? What plans are you making to improve the areas of need?

The mathematics program at Oneida is a focus area for improvement. The need for RtI and intervention strategies is apparent at all grade levels. To focus on this we intend to research programs and techniques to excite all stakeholders in the field of mathematics. The automaticity initiative, sponsored through Eastern Kentucky University, will become a daily routine for all students to build numeracy.

Purchasing math based software or web license that students can access from home will be another goal of Oneida Elementary to allow students to continue their math education when they are at home. Both IXL and pearson success have become programs the show positive growth in mathematics. Oneida incorporates a rigorous mathematics curriculum using materials purchased through TPearson. Online data tracking will allow teachers and administration to personalize instruction for struggling students.

Writing has proven to be a weakness through all grade levels. Oneida monitors writing on a weekly basis and utilized web based software to offer writing initiative across content areas. Dedicating both time and funds to improve writing is a positive start. The utilization of professional developments offered through CIITS will strengthen teacher instruction and improve student performance.

Conclusion

Reflect on your answers provided in the previous sections. What are your next steps in addressing areas of concern?

The next steps for Oneida Elementary will be to continue to monitor data trends and identify individual students that require additional support to become successful academically. Incite from experts at the elementary level will be key in developing a solid program. The assistance and guidance of the local board of education and the ownership of teachers and community will help repair any holes in curriculum and make students successful. The master schedule will be altered to incorporate IXL and pearson success both in the mornings and evenings at Oneida Elementary . Increased communication with the local community will gain support for the writing initiative taking place at Oneida. By implementing PBIS student achievement will be recognized on a larger and more frequent scale. Students are first at Oneida, and teachers are committed to offering the highest quality of education to foster success. Additional professional development will be offered for teachers in the areas of math, reading, science, writing and social studies to increase student performance. Leadership will continue to attend positive and productive training's that will embody the type of professional leadership needed to take Oneida to the next level.

Comprehensive Needs Assessment	The school conducted a comprehensive needs assessment, which included a review of academic achievement data for all students and assessed the needs of the school relative to each of the schoolwide program components.	Yes	Oneida Ele. needs assessment involved looking at previous years KPREP test scores. All teachers review student performance on KPREP. Then we took MAP test data from the Fall test and updated and new goals are set after each assessment. Program Review data is reviewed and assessed on a regular basis throughout the school year. Tell survey results are also reviewed by the principal and used when setting working condition goals.

Core Academic Programs	The school planned and developed Schoolwide researchbased instructional reform strategies to strengthen the core academic program, increase the amount and quality of learning time, and provide additional support to all students.	Yes	The teachers are always looking for professional development that will increase their teaching strengths. This is done through district offered PD and SESC Coop. That way the curriculum and classes receive the best class offering possible for Oneida Ele. and it's students.	

Label	Assurance	Response	Comment	Attachment
Preschool Transition	The school planned preschool transition strategies and the implementation process.	Yes	Oneida Ele. now offers preschool. We partnered with KYEOC and now have a blended class at Oneida Ele. With this being in the building students will get the instruction needed to be able to transition into kindergarten with skills needed to succeed at a higher level. The students will also have knowledge of the school and teachers already and have a less stressful transition.

Phase II - KDE Compliance and Accountability - Schools

Introduction

The process of Improvement Planning in Kentucky is used as the means of determining how schools and districts will plan to ensure that students reach proficiency and beyond by 2015. The process focuses school and district improvement efforts on student needs by bringing together all stakeholders to plan for improvement, by focusing planning efforts on priority needs and closing achievement gaps between subgroups of students, by building upon school and district capacity for high quality planning, and by making connections between the funds that flow into the district and the priority needs in schools.

Your school's plans for improvement must be based on careful and honest analysis of data, address all content areas, and clearly address gaps in student achievement.

Planning and Accountability Requirements

The school has identified specific strategies to address areas for improvement identified in the TELLKY Survey results.

Executive Summary

Introduction

Every school has its own story to tell. The context in which teaching and learning takes place influences the processes and procedures by which the school makes decisions around curriculum, instruction, and assessment. The context also impacts the way a school stays faithful to its vision. Many factors contribute to the overall narrative such as an identification of stakeholders, a description of stakeholder engagement, the trends and issues affecting the school, and the kinds of programs and services that a school implements to support student learning.

The purpose of the Executive Summary (ES) is to provide a school with an opportunity to describe in narrative form the strengths and challenges it encounters. By doing so, the public and members of the school community will have a more complete picture of how the school perceives itself and the process of self-reflection for continuous improvement. This summary is structured for the school to reflect on how it provides teaching and learning on a day to day basis.

Description of the School

Describe the school's size, community/communities, location, and changes it has experienced in the last three years. Include demographic information about the students, staff, and community at large. What unique features and challenges are associated with the community/communities the school serves?

Oneida Elementary has a student population of approximately 135. The location of the school is in a rural southeastern Kentucky that has seen little change in the past three years. The school itself is the oldest building in the district and has not seen any level of extensive renovation beyond expanding the gymnasium. There is one class per grade level. Teacher turnover is high, in the last two years there have been four new teachers and three staff changes in the school. Also, it has had a administrative change with a new principal in September. The rural setting of Oneida Elementary limits the opportunities available to students, but offers a close community partnership that is hard to come by. Oneida Elementary is one of the largest organizations in the community, of the 135 students in attendance, 53% are female and 47% are male while all students are mainly Caucasian. Oneida Elementary offers food programs, family reading nights, summer programs, family math night, kindergarten picnic and a variety of other activities and productions to engage community members. A unique challenge that Oneida Elementary faces is the location of the school. The community is a very proud and doesn't want the outside world to know just how needy they are compared to the rest of the county schools. They want to be able to provide for the students but have a limited abundance of knowledge and money. They are willing to do what they can and if someone offers assistance then they will slowly accept it.

School's Purpose

Provide the school's purpose statement and ancillary content such as mission, vision, values, and/or beliefs. Describe how the school embodies its purpose through its program offerings and expectations for students.

Oneida Elementary believes that through hard work and determination of its faculty and staff students will be successful. Oneida faces various obstacles including rural constructs and high levels of poverty. One of our goals are taking away as many distractions as possible to allow students to focus on education and learning. Many students take part in the Back Pack Program, which sends enough food home bi-weekly so children are not hungry. After school programs allow children to remain under the safety provided at Oneida for a few more hours every day. Security measures including video cameras, locked doors and safety management plans, provide a safe learning environment for every student. With all the program offerings at Oneida Elementary, we expect all students to perform at their top potential and achieve as much as students their age.

Notable Achievements and Areas of Improvement

Describe the school's notable achievements and areas of improvement in the last three years. Additionally, describe areas for improvement that the school is striving to achieve in the next three years.

Notable achievements include keeping the school open against opposition to close it. The community has a need for the presence of a local educational facility with ties to the district. Academically, Oneida has made great improvements in the level of reading for every student enrolled. Through the Elgin program and Imagine It, more students are reading at grade level than ever before. This is definitely something the school and community should be proud of. Improvement areas include reading comprehension and mathematical numeracy. Oneida's goal over the next three years is to see more students at a level of proficiency in both math and reading than not. With the staff being placed in their strong points, students will continue to excel in reading and in math.

Extra curricular activities at Oneida have picked up support this year. The school offers Basketball, Cheer, Dance, Drama, Academics for all grade levels, and new this year an archery program for grades 4-6, dance team and little dribbler team for preschool to second grades. More community members have attended these events than in past years. The schools is showing the community that we are here for them and they are responding greatly. Family reading night, family math night and open house has increased in average attendance and support.

Additional Information

Provide any additional information you would like to share with the public and community that were not prompted in the previous sections.

Oneida Elementary wants to have the highest quality instruction possible for all students enrolled. To do this Oneida Elementary feels community support must be present as well as district support. So we are continuing to get as much community involvement as possible. As increased attention is focused on instruction and support of student learning at Oneida Elementary, we expect to see great improvements in student performance in both the classroom and on KPREP.
